Assignment 2- Due: August 27, 2023

In this assignment, you will construct a language model for any of the African language from CC-100 repo using the hugginface platform.

Provide the following information:
1. Ensure you follow the appropriate machine learning paradigm to train your model
2. define/us an appropriate metric to evaluate the performance of the language model
3. Perform error analysis and give reasons for the limitations of your model if any.
